

Community Website Guidelines

The free community sites are provided by Lincolnshire County Council with the understanding that certain reasonable standards are maintained.

Below are some guidelines, which you must adhere to, to ensure that we can continue to provide free provision of quality community sites.

- The service is offered to non profit organisations only. Any commercial ventures will not be able to take part.
- Only groups that we feel are acceptable will be able to take part in the scheme - we have the final decision.
- No alterations are to be made to the colour or the layout of the pages or the functionality of the site in any way.
- Do not use any text or pictures that are defamatory or offensive. If this happens, the material in question will be removed immediately and could result in us terminating your site.
- You must not download any page or part of a page of the site for any purpose – unless expressly agreed with The Web and Information Services Team of Lincolnshire County Council.
- Do not use pictures of people without asking them first if you can put them on the website.
- Do not mention people by name unless they agree to it.
- Do not publish personal information such as telephone number or e-mail address without permission from the owner.

If any organisation does not adhere to the above guidelines, then we reserve the right to terminate the site and all its content.
