Minor Amendment to Proof of Evidence

One minor amendment to the Noise Proof of Evidence is required and is set out below:

Appendix LCC05(ii)A-4: Figures, Figure 1: Environmental Statement Noise Mitigation Proposals (ES Volume 4 Figure 12-2) was attached. That represented the measures to be included at the time the ES was published. Since then the position has been reviewed to include additional noise barriers, particularly in the vicinity of Grange Farm not previously shown. Please replace Figure1 with the drawing below which shows all such measures to be provided and which is then consistent with the evidence as delivered to the Inquiry.
