

## THE LINCOLNSHIRE COUNTY COUNCIL (A1461 NORTH HYKEHAM RELIEF ROAD) (CLASSIFIED ROAD) (SIDE ROADS) ORDER 2024

The Lincolnshire County Council ("the Council") makes this Order in exercise of its powers under Sections 14 and 125 of the Highways Act 1980 and all other powers enabling it in that behalf:-

1. (1) The Council is authorised in relation to the classified roads in the Parish of Thorpe on the Hill, the Parish of South Hykeham, the Parish of Waddington and the Parish of Bracebridge Heath all in the District of North Kesteven and in the County of Lincolnshire to:-
  - (i) improve the highways named in the Schedules and shown on the corresponding Site Plan by cross-hatching;
  - (ii) stop up each length of highway described in the Schedules and shown on the corresponding Site Plan by zebra hatching;
  - (iii) construct a new highway along each route whose centre line is shown on a Site Plan by an unbroken black line surrounded by stipple;
  - (iv) stop up each private means of access to premises described in the Schedules and shown on the corresponding Site Plan by a solid black band;
  - (v) provide new means of access to premises along each route shown on a Site Plan by thin diagonal hatching.

(2) Where a new highway is to be constructed wholly or partly along the same route as a new access or part of one, that new highway shall be created subject to the private rights over that new access.

(3) Each new highway is given a reference letter on a Site Plan, which is also placed in the respective Schedule, and will be a road unless the word "footpath" or "bridleway" or "cycle track" appears beneath its reference letter in that Schedule, in which case it will be a footpath/bridleway. Each new access is given a number on a Site Plan, which is also placed in the respective Schedule.

(4) Where a new highway is to be constructed or a new access is to be provided in connection with the stopping up of a length of highway or private means of access described in a Schedule, its reference letter or number ( as the case may be) is placed in that Schedule opposite the description of that length.

(5) Each Site Plan shows the works indicated in the respective Schedule and has the same number as that Schedule, and the route of the classified road in relation to those works.
2. Where immediately before a length of highway is stopped up in pursuance of this Order there is under, in, on, over, along or across that highway any apparatus of statutory undertakers or any telecommunications code system operator, then, subject to Section 21 of the Highways Act 1980, those

undertakers or that operator, as the case may be, shall continue to have the same rights as respects that apparatus as they had immediately before the stopping up took place.

3. In this Order:-

- (1) distances are measured along the route of the relevant highway or private means of access, as the case may be
- (2) a reference to a Schedule or Site Plan number is a reference to the Schedule or Site Plan, so numbered, and a "Schedule" means a Schedule to this Order
- (3) "classified road" means the classified A1461 road which the Council propose to construct from the A46 North Hykeham Roundabout eastwards for a distance of approximately 8km to its junction with the A15 Sleaford Road Roundabout and which is a proposed highway which is a classified road in accordance with Section 12 of the Highways Act 1980;

"the Council" means Lincolnshire County Council;

"improvement" in relation to a highway includes raising, lowering or otherwise altering that highway, and "improved" shall be construed accordingly;

"new access" means a means of access to premises authorised by this Order to be provided;

"new highway" means a highway authorised by this Order to be constructed and "new highways" shall be construed accordingly;

"Schedule" means a Schedule to this Order and "Schedules" shall be construed accordingly;

"Site Plan" means one of the plans numbered 1 to 14, contained in the plan folio and marked "Lincolnshire County Council (A1461 North Hykeham Relief Road) (Classified Road) (Side Roads) Order 2024", sealed with the Common Seal of the Council and deposited at the offices of Lincolnshire County Council at County Offices, Newland, Lincoln LN1 1YS and at the offices of North Kesteven District Council, District Council Offices, Kesteven Street, Sleaford, NG34 7EF online at [www.lincolnshire.gov.uk](http://www.lincolnshire.gov.uk) and a duplicate has been deposited in the offices of the Secretary of State for Transport

Date

26th September 2024

The COMMON SEAL of

Lincolnshire County Council

was hereunto affixed in the presence of:

Authorised Signatory

Ewan Gossom

# **The Lincolnshire County Council (A1461 North Hykeham Relief Road, Classified Road) (Side Roads) Order 2024**

## **General notes for Side Road Order (SRO) plans and schedule**

### **To be read before Schedule**

#### **Acronyms**

NHRR = North Hykeham Relief Road

PMA = Private Means of Access

PRoW = Public Right of Way

#### **Definition of Highways**

Reference to "footway/cycleway" or "combined footway/cycleway" means a cycle track with a right of way on

#### **Viewports**

Viewports are used when a route needs to be separated into more than one part to fit on a plan. The scale of the viewports is 1:2500 unless stated otherwise on the plan.

#### **Insets**

Insets are used when an identified reference area is small on the 1:2500 plan or more detail needs to be shown of a particular SRO requirement's area of interest. The scale of each inset is shown on the plan.

#### **Location**

Location gives a set measurement from an existing point of reference to the point where the SRO requirement

#### **Description**

That which will identify the direction and length (distance) of the specific SRO requirement from its location.

#### **Reference Points for Measurement**

Intersections and Junctions - Where a reference point is not provided and a location or description refers to an Intersection or Junction of two or more features, this indicates that a measurement is taken from the point at which the centrelines of the features intersect.

●# is shown on some plans to clarify the locations of some reference points.

#### **Distance measurements**

Distances are generally measured along the centreline of the feature being described. Where this is not possible a distance has been measured as the crow flies from the point of reference - this is indicated with an asterisk in the schedule e.g. 765 metres\*.

#### **Part (pt.) references**

Wherever (pt.) is shown after an SRO reference number this indicates that this reference appears on more than one plan or viewport. In this case the overall description and length of the route will be identified in the

**North point**

The north point is shown on the SRO Masterplan and on each SRO Plan. Its positional direction changes relative to the NHRR alignment along the route.

**Reference to compass direction on the schedule under "Location"**

Reference to compass direction on the schedule under "Location" follows the compass direction of the SRO requirement from its point of reference to the starting position of the SRO and is used for reference only

**Reference to compass direction on the schedule under "Description"**

Reference to compass direction on the schedule under "Description" denotes the direction of the SRO requirement from its starting point.

**Private means of Access to maintain a field**

Where a distance length is not identified on the schedule, it should be assumed that the access will extend from back of an existing or proposed new carriageway, to the required field boundary.
