No Purchase Order No Payment

A Council Officer or School employee submits a request for goods or service. Once the request is approved, a purchase order is generated and assigned a unique reference number. Please note that the purchase order will be issued from the email address keydocs@fin.lincolnshire.gov.uk

The purchase order is then issued to the supplier and serves as formal authorisation to proceed. The supplier must deliver the goods or service as specified in the purchase order.

Suppliers working with Lincolnshire County Council must include a valid purchase order number on all invoices. This number, provided on the purchase order, confirms the request for goods or service. This policy ensures that all procurement complies with internal procedures and the Council's finance governance framework.

All supplier invoices must quote a valid purchase order number.

The invoice must be addressed to Lincolnshire County Council and include the department or School when the goods/services were provided. Invoices sent to a local LCC site office or school cannot be processed.

Once the goods/services have been received, the Council Officer or School Employee responsible should confirm this by completing a 'goods receipt' on the Financial System.

When the invoice is registered, it should match against the corresponding purchase order number and the goods receipt.

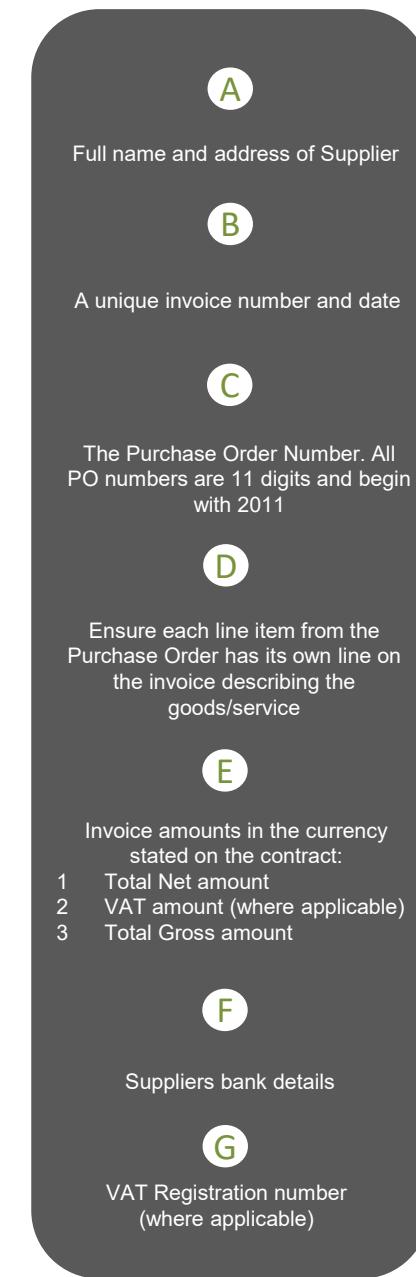

The invoice will then be processed and payment released according to the suppliers pre agreed payment terms.

What happens if I haven't got a valid Purchase Order Number?

Please do not accept orders for goods or services unless you are provided with a valid purchase order number. When you submit your invoice for goods or services and it does not include a valid purchase order number, it will be rejected back to you unpaid. You will need to amend your invoice accordingly and resubmit it.

All staff of Lincolnshire County Council are aware of the No Purchase Order No Payment policy and have received the appropriate training and guidance. They have been advised they are not to make a request for goods or services without quoting a valid purchase order.

If you receive a request for goods or services without a valid purchase order number then contact the Council Officer or School Employee who made the request and ask them to provide you with a valid purchase order number.

Will I get paid any quicker if I provide a valid Purchase Order number?

This policy does not alter the pre-agreed payment terms you have with Lincolnshire County Council. However, if your invoice does not include a valid purchase order number, it will be cancelled and returned unpaid. Rejected invoices may lead to payment delays, as suppliers will need to resubmit a corrected version before processing can continue. To avoid disruption, please ensure your invoice is accurate and complete when first submitted.

You will receive an email alongside the returned invoice outlining the steps required to receive payment. This may include amending the invoice to clearly display a valid purchase order number.

Should you experience any difficulties obtaining a purchase order number from the Council Officer or School Employee who made the original request for goods or services please contact suppliers@lincolnshire.gov.uk
