

Grass cutting programme – 2020/21

Below are the dates for Lincolnshire County Council's 2020/21 grass cutting programme. All dates are provisional and may change depending on the rate at which the grass grows.

All **rural road verges** are cut by LCC. Please be aware that some parish, town and district councils cut the verges in their **built-up areas (urban)** and not LCC (see list below). Their operations will not necessarily coincide with LCC's grass cutting programme. Please contact the relevant council for further details on their grass cutting programme.

Countywide	Dates for Verge Cuts
First cut	27 April – 31 May
Second cut	15 June – 19 July
Third cut	7 th September – 11 October

Built-up areas where verges are not cut by LCC

In the following locations, verges in built-up areas are cut on LCC's behalf by the parish council or, where indicated, the district council. LCC contributes to the minimum requirement of three cuts, with some councils choosing to carry out additional cuts at their own discretion.

For further details, including the timing of these cuts, please contact the relevant council directly.
