

## **LINCOLNSHIRE COUNTY COUNCIL'S RESPONSE TO CONSULTATION ON THE FOLLOWING DEVELOPMENT PROPOSAL**

**District:** Lincolnshire County Council

**Application number:** PL/0123/24

**Application Type:** Full – Major Planning Application

**Proposal:** For the installation of new fire suppression system with external pumphouse and water storage tank, and adaptations to store food waste separately with external drainage tank to collect leachate and cleaning water

**Location:** Grantham Waste Transfer Station, Occupation Lane, Great Gonerby

**Response Date:** 21 January 2025

This report includes the Substantive response of the Local Highway and Lead Local Flood Authority to a planning consultation received under the Development Management Order and includes details of any planning conditions or informatives that should be attached in the event that permission is granted and any obligations to be secured by way of a S106 agreement.

### **General Information and Advice**

Please note that although the Definitive Map and Statement proves the existence of any recorded rights of way, there may be further or higher rights that are not shown on this document that the County Council is not currently aware of. This would be especially relevant where the public has had informal access to the site or where there are references to routes across this in maps or other historic documents. As the County Council has received no application to recognise further rights of way affecting the site, no more informed guidance can be offered at this stage.

**Application number: PL/0123/24**

**Application Type: Full – Major Planning Application**

**Location: Grantham Waste Transfer Station, Occupation Lane, Great Gonerby**

## **Highway and Lead Local Flood Authority Report**

**Substantive Response provided in accordance with article 22(5) of The Town and Country Planning (Development Management Procedure) (England) Order 2015:**

### **Recommendation: No Objections**

Having given due regard to the appropriate local and national planning policy guidance (in particular the National Planning Policy Framework), Lincolnshire County Council (as Highway Authority and Lead Local Flood Authority) has concluded that the proposed development would not be expected to have an unacceptable impact upon highway safety or a severe residual cumulative impact upon the local highway network or increase surface water flood risk and therefore does not wish to object to this planning application.

### **Comments:**

#### **Introduction**

The proposal is for the installation of new fire suppression system with external pumphouse and water storage tank, and adaptations to store food waste separately with external drainage tank to collect leachate and cleaning water.

The site is located to the Northwest of Great Gonerby on an established industrial estate with transport links onto the A1.

#### **Highway safety**

The proposals are all internal to the site and the access and parking arrangements remain unchanged; therefore, it is considered that the proposals would not result in an unacceptable impact on highway safety.

#### **Highway capacity**

The WTS food waste adaptations will likely generate a small amount of additional traffic movements on the surrounding road network, with the sites close proximity to the A1, the proposals will not have a severe impacts on the road network.

#### **Flood Risk and Drainage**

As Lead Local Flood Authority, Lincolnshire County Council is required to provide a statutory planning consultation response with regard to Drainage on all Major Applications. This application does not propose a change to the current surface water management, the proposed food waste leachate will be collected and stored in a separate sealed system which will be removed from site by vehicle. Therefore, the Lead Local Flood Authority does not consider that this proposal would increase flood risk in the immediate vicinity of the site.
